

RWD #16

RURAL WATER DISTRICT
CHEROKEE COUNTY

March 1, 2024

Dear Valued Customer,

Due to an annual inflation rate of 3.4%, an annual rate analysis was conducted by the Oklahoma Rural Water Association prior to the February 2024 Board of Director’s meeting. A rate adjustment was voted on and approved to take effect on your April 2024 billing cycle. This adjustment is needed to cover the increased operation and maintenance expenses of the district.

Thank you for your understanding and support.
